

# KNOW YOUR ADVERSARY

When was the last time you walked up to a predator and said, "Help yourself"? And yet, that's exactly what we're doing when we fail to listen to the loud warnings of Christ. We're talking about an unseen predator, the flesh-ripper and marauder of all mankind, who slithers about killing, destroying and pillaging for centuries on end, without ever being identified. Meantime, a loving God gets all the blame. In 'Know Your Predator' Pastor Caprietta finally gives us the complete encyclopedia on the predator's profile - where he came from, what he does, and how to stop him once and for all. 'Know Your Predator' is a real eye-opener. It's the go-to-book for creating a better quality of life for your family, ministry, finances and health. Don't keep the information to yourself. You'll want to buy a few copies and pass them around.
