

Meet parents and pastors Paul and Gail Caprietta. With over 5 years experience in fostering displaced children and 15 years as biological parents, together they share a wealth of information that is sure to stabilize any foster-care or adoptive home-life.

PARENTING & NURTURING foster kids!

Pastors Paul and Gail Caprietta have a special calling on their lives, not only for the lost souls of this world, but children in particular. Their desire transcends beyond race, creed, color and cultures and is best expressed in their love for providing foster-care to displaced and troubled children. In this book, the pastors highlight a number of scenarios which dispel the notion once and for all that children cannot be changed within a short period of time. In fact, the scenarios demonstrate the exact opposite is true! With proper love and care, kids adapt very quickly and can transform almost overnight! This book is a how-to manual for foster-care and adoptive families everywhere, and shows us with clear and easy-to-understand instructions, how to transform any child's unique and precious personality through God's love. The pastors' stories are heart-warming and unforgettable!
